Is Your Water Safe?

Did you know that the water in your home may not be as safe as you think? It's important to know the facts about water safety and how to protect your family.

Water is the most important single constituent in the diet and is essential for life. It is a vital part of our health and well-being, and it's important to know how to protect it.

Another example of the vital role played by water can be seen in the fact that the body can lose as much as 10 percent of its water and still survive, while the loss of one-tenth of its water will cause death. Approximately 70 percent of the human body is composed of water.

Dr. Howell advises farmers to make sure that their livestock are getting an adequate supply of good, clean water.

Regional offices of the Department of Agriculture are located in Stettler, Alberta, and in other parts of the province.

Spring Burning Outmoded As Weed Control Measure

The old method of burning weeds in the spring is being outmoded as a weed control measure. Farmers are now using herbicides to control weeds. This method is more effective and less expensive than burning. It also does not pollute the air. Farmers are encouraged to use herbicides to control weeds in their fields. This will help to increase crop yields and reduce the need for burning.

Fallout On The Farm

Producers here are being hit hard by the fallout from the recent drought. Many farmers are reporting a significant drop in crop yields, particularly in the areas of wheat and barley. The situation is particularly dire for those who have not been able to diversify their operations. Many are now facing financial difficulties and are seeking assistance from local government agencies. The impact of the drought is being felt throughout the agricultural community, and it is expected to continue for some time.

Exchange View of St. George's Anglican Church

The Anglican Church of St. George's is currently undergoing a major renovation project. The church, which is one of the oldest in the community, is being completely rebuilt to modern standards while maintaining its historical character. The project is being funded through a combination of donations and grants. The church is expected to be completed by the end of the year. The renovation will include the replacement of the roof, the walls, and the interior fixtures. The church is a significant landmark in the community and its restoration is a project of great importance.

Conserve Fodder Now

With the price of feed so high, it is essential that every farmer conserve his fodder. The Alberta Department of Agriculture has issued a booklet, "How to Conserve Fodder," which gives many suggestions for doing so. It is available free of charge to all farmers. To obtain a copy, write to the Department of Agriculture, Regina, Saskatchewan, S4S 0A2.

Is Management on Strike?

Management is on strike in many industries, leading to widespread disruption. The strike is a result of a dispute over wages and working conditions. The workers are demanding higher pay and better benefits, while the management is refusing to meet their demands. The strike has led to a shortage of goods and services, and many businesses are struggling to stay open.

Hay And Pasture Crops

Hay and pasture crops are essential for the livestock industry. The weather has been favorable for growing these crops, and many farmers are reporting good yields. The crops are being harvested and stored for use throughout the year. The hay is being baled and stacked, while the pasture is being mowed and fertilized.

GRAND INTERNATIONAL OF 1967

Taking The Sting Out Of Drought

The drought has been a major problem for the province, and it is essential that we take steps to alleviate it. The government has announced a plan to provide financial assistance to farmers and to implement measures to conserve water. The plan is a comprehensive one, and it is hoped that it will help to bring the drought to an end.

Ask Downer Act Changes

The Downer Act, which governs the regulation of motor vehicles, should be amended to reflect current conditions. The act is outdated in many respects, and it is essential that it be updated. The proposed changes would improve the safety of the roads and the lives of the people who use them.

Diary Of A Vagabond

A diary entry from a vagabond who has traveled the world. The entry describes the author's experiences and observations in various parts of the world. The author is a wanderer at heart, and he enjoys the freedom and adventure of travel. The entry is a fascinating read, and it provides a unique perspective on the world.

THE MAIL BOX LETTERS TO THE EDITOR

Dear Sir,
I am writing to you to express my concerns about the current situation in the province. The drought has been a major problem, and it is essential that we take steps to alleviate it. I am writing to you to express my concerns about the current situation in the province.

WHO REMEMBERS WHEN??

It is hard to remember when things were different. The world has changed so much in the past few years, and it is difficult to recall the way things used to be. It is a strange feeling, and it is one that many people experience. It is a reminder of the passage of time and the changes that we have undergone.

1921 - 40 YEARS AGO

In 1921, the province was a very different place. The population was much smaller, and the economy was based primarily on agriculture. The province was a frontier, and it was a place of opportunity and adventure. It was a time of great change, and it was a time when the province was beginning to develop.

1941 - 20 YEARS AGO

In 1941, the province was a very different place. The population had grown, and the economy had diversified. The province was no longer a frontier, and it was a place of opportunity and adventure. It was a time of great change, and it was a time when the province was beginning to develop.

The bride, Mary Peterson, was accompanied by her father, Mr. John Peterson. The groom, Albert Peterson, was accompanied by his best man, Mr. John Smith. The wedding reception was held at the St. Peter Lutheran Church.

Erskine District News

The Erskine District is a beautiful area with many scenic views and recreational opportunities. The district is home to many of the region's best golf courses, including the Erskine Golf Course. The district is also home to many beautiful lakes and rivers, providing a wealth of fishing and boating opportunities. The Erskine District is a great place to live and visit.

Swine Health Program

The Stettler Health Department is currently running a swine health program. The program is designed to ensure that all swine in the area are healthy and free of disease. The program involves the use of a special vaccine that is administered to the swine. The vaccine is free of charge and is available to all swine owners. The program is a great way to protect your swine and the community.

Bovine Tuberculin Made in CDA Laboratory

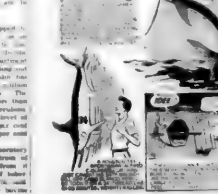

The Canadian Dairy Laboratory (CDA) has successfully developed a new bovine tuberculin. The tuberculin is made from a special strain of bacteria and is used to test for tuberculosis in cattle. The tuberculin is a significant improvement over the current tuberculin used in Canada. It is more effective and easier to use. The CDA is proud of this achievement and hopes that it will help to reduce the incidence of tuberculosis in cattle.

Bentley Light Smashed Once Too Often

A Bentley Light car was involved in a serious accident on July 10, 1963. The car was traveling on a highway when it was struck by a large truck. The impact was so great that the car was completely destroyed. The driver of the car was seriously injured and is currently in the hospital. The driver of the truck was not injured. The accident is being investigated by the police.

Funeral Services Held For Stanley Pedan

Funeral services for Stanley Pedan were held on July 10, 1963, at the Stettler Funeral Home. Stanley was 65 years old and had been a resident of Stettler for many years. He was a kind and gentle man who was loved by all who knew him. He is survived by his wife, Mrs. Stanley Pedan, and several children. The funeral was a touching service and many people attended.

How Many Miles Should a Truck Last?

It depends on the driver, on the care that a truck is given, and on the manner in which the truck was built. Let's assume the first two factors are average - the driver is reasonably conscientious of his truck's maintenance. It becomes a simple matter of how the truck was built. A well-built truck should last for many miles. A poorly built truck will not last as long. The quality of the materials and the workmanship are the key factors in determining how long a truck will last.

Change Postal Rates to the United States

The Canadian government has announced that it will be increasing the postal rates for mail sent to the United States. The increase is due to the rising costs of postage and transportation. The new rates will be in effect starting on July 1, 1963. The government hopes that the increase will help to cover the costs of the postal service.

YOU GET MORE THAN MERCHANDISE FOR YOUR MONEY when you SHOP AT HOME!

Alberta Government Will Have Displays at Exhibition

Victoria, B.C. (AP) - The Alberta Government will have a large display at the 1951 World Horticultural Exposition in Vancouver, B.C. The display will include a variety of Alberta products, including wheat, oilseeds, and livestock. The display will be located in the main exhibition hall and will be open to the public from July 1 to September 1, 1951.

8 ADDITIONAL REASONS WHY IT PAYS YOU TO SHOP AT HOME:

- BARGAIN SHOPPING** - One stop takes care of all shopping needs. Everything steps a way!
- FREE PARKING** - Plenty of free parking space available, convenient to all stores.
- GREATER VALUES** - Modern distribution brings all the newest merchandise here fast!
- BETTER VALUES** - Lower overhead costs than in larger cities help keep prices down.
- SHOPS WITH CONFIDENCE** - You know your hometown stores, know they'll stand behind all sales!

Salespeople in hometown stores are alert, friendly and co-operative.

Wrapped up in every package that you take home (or have delivered) from Stettler stores are EXTRA benefits for you and your family! Not only do you get good value in merchandise for every dollar you spend, but part of every dollar stays right here in your hometown, where it can help make this a better place in which to live. Taxes to maintain local schools, a parks and other civic services, contributions to support local churches, hospitals, youth activities, etc., must come in a large part from local business men. Much of the money you spend with them keeps right on working for YOU, as a local resident!

Gully Control

The appearance of gully erosion on the farm is a warning sign that the soil is being washed away. It is a common problem on farms with heavy machinery and is caused by the removal of the topsoil. The gully will continue to grow deeper and wider if it is not controlled. The best way to control gully erosion is to plant grass or other vegetation in the gully. This will help to hold the soil in place and prevent it from being washed away. If the gully is too deep, it may be necessary to build a retaining wall or to fill the gully with soil.

printer of the cartoon as a ruse and "We'll be back," he said, "in a few days."

The whole incident is another example of Indian smugness. Apparently, a grade at the digging of his own grave. In my mind, if the male were more intelligent, he would at least dig his own grave and have the family sitting for a while before he goes to the cemetery. "I'm not back now. It's a wonder to me that I have not a score of medals for the things every Friday about me," all common in those times.

Economy In Government

From the Globe and Mail
The government has announced a series of measures designed to bring about a more efficient and economical administration of the public service. These measures are being introduced in a series of bills introduced in the House of Commons last week.

The first of these measures is a bill to amend the Public Service Act, which will give the government the power to reorganize the public service in order to eliminate overlapping and unnecessary departments and to bring about a more efficient and economical administration of the public service.

The second measure is a bill to amend the Public Service Act, which will give the government the power to reorganize the public service in order to eliminate overlapping and unnecessary departments and to bring about a more efficient and economical administration of the public service.

The third measure is a bill to amend the Public Service Act, which will give the government the power to reorganize the public service in order to eliminate overlapping and unnecessary departments and to bring about a more efficient and economical administration of the public service.

high productivity and low production costs are obtained by rational farming. Neither can be obtained by antiquated methods and obsolete machinery. The only way they can be achieved is by utilizing modern methods and equipment from modern times.

Ministry of Agriculture machines and implements are being supplied to the world over to make their particular farming operations more profitable by doing more work at less cost.

Wethers in 1961 numbered 1,081, according to the annual report of the state according to Charles E. Smith, a representative of the state's wool industry. The number of sheep in June totaled \$700,000 a sheeping 551 per cent over the number of sheep in 1950, when the number was \$120,000. The 1961 total number of the new Colorado sheep is 1,081, according to the annual report issued to Burlington. Over the past 10 years, the total was almost double the previous year.

There were 10,000 goats in the state in 1961, according to the annual report, with only 60 in 1950. The number of goats in the state a year ago totaled the same number. Last year, at the state's capital, the number of new humans were named.

The 1961 percent was 100 percent, according to the annual report. The other new projects in the state are the new Colorado Sheep Ranch.

Alberta's Economy Shows Satisfying Upward Trend

Alberta's economy is showing a satisfying upward trend, according to a report released by the provincial government. The report indicates that the province's gross domestic product (GDP) has increased by 1.5% over the past year, and that the unemployment rate has decreased from 10.5% to 9.5%.

The report also notes that the province's manufacturing sector has shown a strong performance, with output increasing by 2.5% over the past year. This is attributed to a combination of factors, including increased demand for Alberta's products and improved efficiency in the manufacturing process.

In addition, the report highlights the growth of the service sector, which has contributed significantly to the province's overall economic growth. The service sector's output has increased by 1.8% over the past year, and its contribution to the province's GDP has risen from 45% to 48%.

The report concludes that Alberta's economy is well-positioned for continued growth in the future. It notes that the province's strong resource base, combined with its growing manufacturing and service sectors, provides a solid foundation for long-term economic development.

Teachers Cannot Replace Parents

It is a common misconception that teachers can replace parents in the education of their children. While teachers play a vital role in providing knowledge and skills, they cannot replace the love, guidance, and discipline that parents provide at home. The partnership between parents and teachers is essential for a child's success.

October Elections

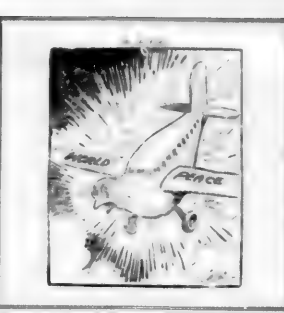

The upcoming October elections are a significant event in the community. Citizens are encouraged to participate and vote for the candidates they believe best represent their interests. The election process is a cornerstone of democratic governance.

Agricultural Civil Defence

John Smith, owner of a 10-acre dairy farm in the Washington State town of Rainier, says that the new regulations will be a "big relief" to him and his wife and two children. Smith is a member of the National Livestock Husbandry (Veterinarians, Scientists and Emergency Veterinary Officers) Association. He says that the Department of Agriculture's proposed rule will save 24 hours a week on his 200 cows and 100 calves and goats. "We will have less operation loss, have a definite increase in the speed with which the milking travels."

FALL APPLICATION OF ELEPHANT BRAND FERTILIZERS IS GOOD FARM PRACTICE

- You usually have no time.
- Weather in the fall is usually more favorable.
- When spring arrives, the plant food (even fall applied fertilizer) is in the root zone ready for vigorous early growth.
- When you fertilize hayland in the fall you are more certain of moisture to carry the fertilizer down to the root zone.
- Fall application on stubble and seed bearing promotes rapid decay of crop residue.

Fewer Producers Needed

OTTAWA. — Both bunched together, the Canadian Labor Congress and the Canadian Manufacturers' Association have agreed to a plan to reduce the number of producers in the country. The plan is to have a single producer for each of the 100 products in the country. This would mean that there would be 100 producers in the country instead of the 2000 that there are now. The plan is to be implemented by the end of the year. The Canadian Labor Congress and the Canadian Manufacturers' Association have agreed to a plan to reduce the number of producers in the country. Mrs. Ludlow Celebrates 80th Birthday

Mrs. Ludlow Celebrates 80th Birthday

Mrs. Ludlow celebrated her 80th birthday on Tuesday, October 9, at her home in Stettler. She was surrounded by family and friends for the occasion.

Mrs. Ludlow has been married for 50 years to Mr. Ludlow. They have four children and several grandchildren. She has been a member of the Stettler Women's Institute for many years.

Mrs. Ludlow is a well-known community leader and has been active in many local organizations. She is proud to be a Canadian and a member of the Order of the Queen.

Mrs. Ludlow's 80th birthday was a special occasion for the family. They celebrated with a large dinner and a party at her home. She expressed her gratitude to everyone who came to celebrate with her.

Mrs. Ludlow is looking forward to many more years of life. She enjoys spending time with her family and friends.

Letter To The Editor

Dear Sirs: I am writing to you regarding the recent article in your paper about the proposed changes to the Stettler school district. I am a parent of a child in the district and I am concerned about the impact these changes will have on our children's education.

I believe that the proposed changes are not in the best interests of the community. I am hoping that you can help me voice my concerns to the appropriate authorities.

I am sure that you will do everything in your power to represent the community's interests. Thank you for your attention to this matter.

Sincerely,
[Name]

GETTING ACCUSTOMED TO A NEW LIFE

Mr. Robert Fisher, 45, and his family of four, including his wife, Mrs. Fisher, and their children, are pictured here. They are the first of a new wave of immigrants to the Stettler area, having arrived from the United Kingdom in 1958.

THANKSGIVING - 1961

Thanksgiving is a time when we pause to reflect on the blessings we have received. It is a time to give thanks for the food on our tables, for the family around us, and for the many opportunities we have been given. This year, as we gather around our tables, let us remember the many who are less fortunate and try to share with them some of the bounty we have received.

Garden Clean-up Aids Control of Plant Diseases

As gardeners begin to clean up their gardens, they should be aware of the importance of controlling plant diseases. Many diseases can be prevented by proper garden maintenance, including removing diseased plants, cleaning up fallen leaves, and using appropriate fungicides. By taking these steps, gardeners can help ensure a healthy and productive garden next year.

HEART Building Supplies

Heart Building Supplies is a company that specializes in providing high-quality building materials for heart-related projects. The Red Willow District is a large and fertile area in the south-western part of the province. It is bounded on the north by the Red River, on the east by the Saskatchewan River, on the south by the United States, and on the west by the Rocky Mountains. The district is rich in natural resources, including timber, minerals, and agricultural land. The population is concentrated in a few small towns and villages, and the majority of the people are engaged in agriculture. The district is an important part of the province's economy and is a source of pride for its residents.

Possible To Keep Tropical Marine Fish

A new study suggests that it may be possible to keep tropical marine fish in home aquariums. Researchers have identified specific environmental conditions that are necessary for these fish to thrive in captivity. These conditions include maintaining a stable water temperature, providing adequate lighting, and ensuring a balanced diet. The study also found that certain types of fish, such as [Species], are more likely to adapt to a home environment. This research could have significant implications for the pet fish industry and for conservation efforts.

Growers Are Optimistic About Future of Rape Seed Production

Rape seed production in Canada is expected to increase significantly in the coming years. Growers are optimistic about the future of the industry due to a combination of factors, including a strong demand for rape seed oil and a favorable climate for growing the crop. The Canadian Rape Seed Council is working to promote the industry and attract new growers. They are also providing support and resources to existing growers. The council believes that the future of rape seed production in Canada is bright.

Forecast Increased Rubber Damage

Long-term forecasts for the rubber industry are gloomy. The Rubber Institute predicts that the industry will suffer a 15 percent decline in output over the next five years. This is due to a combination of factors, including a decline in demand for rubber products and a decline in the number of rubber trees planted. The institute also predicts that the industry will face a decline in prices for rubber products over the next five years.

Soil Drifting Warning

A warning has been issued by the Alberta government regarding soil drifting. The government has advised farmers to take precautions to prevent soil from being blown away by the wind. This is especially important in areas where the soil is dry and the wind is strong. Farmers are advised to plant windbreaks and to use other methods to protect their soil. The government is providing information and resources to help farmers protect their land and their crops.

Pets Menace To Health

It is a common knowledge that pets are a source of joy and companionship to many people. However, it is also a fact that pets can be a source of danger to their owners' health. In a recent study conducted by the University of Michigan, it was found that pets can carry a variety of bacteria and viruses that can be transmitted to their owners. These include the bacteria that cause typhoid fever, the virus that causes measles, and the bacteria that cause salmonella. The study also found that pets can be a source of allergies and asthma. Therefore, it is important for pet owners to take steps to protect their health. This includes keeping their pets clean, avoiding contact with their pets' feces, and washing their hands after handling their pets.

Beef Consumption Rises Over Pork In Canada

Beef consumption in Canada has risen over pork consumption for the first time in over a decade, according to a report by the Canadian Meat Council.

The report states that in 1961, the per capita consumption of beef was 24.5 pounds, compared with 23.5 pounds for pork. This is a significant change from 1950, when pork consumption was 25.5 pounds and beef was 23.5 pounds.

The report also notes that the consumption of beef has increased steadily since 1950, while pork consumption has declined. This is attributed to a variety of factors, including changes in taste preferences and the availability of beef products.

TWO ERSKINE YOUTHS KILLED IN CAR - TRAIN COLLISION

E. W. Walker Hoods Scout District Council

Two Erskine youths were killed in a collision between a car and a train on the C.P.R. tracks near Stettler, Alberta, on Tuesday night.

The victims were identified as 17-year-old John E. Walker and 16-year-old Robert E. Walker, both of whom were members of the Stettler Scout District Council.

The car, a 1952 Ford, was driven by E. W. Walker, the father of the two youths. The car was traveling south on the C.P.R. tracks when it collided with a northbound passenger train.

The train, which was carrying passengers and mail, stopped at the scene of the collision. The two youths were killed instantly.

The Stettler Scout District Council has announced that it will hold a memorial service for the two youths on December 20th at the Stettler United Church.

THE INFANT CHRIST WAS BORN... (Caption text is partially obscured and difficult to read)

Church, Home Devotions Show Holy Meaning Of The Holiday

Stettler, Alberta, Dec. 10.—The Christmas season is a time of holy devotion and spiritual growth. In the churches, the people are gathered to celebrate the birth of Christ, the Son of God. The services are filled with hymns, prayers, and the reading of the Bible. At home, families are gathered around the Christmas tree, exchanging gifts and enjoying the warmth of the season. The holy meaning of the holiday is emphasized in the church services, where the people are reminded of the love and grace of God. The Christmas season is a time of joy and peace, and it is a time when the people are united in the love of Christ.

Feasts Play Favorites, World Over

Stettler, Alberta, Dec. 10.—The Christmas season is a time of feasting and celebration. In many parts of the world, the people are gathered around the Christmas table, enjoying the fruits of the earth. The feasts are a time when the people are united in the love of Christ, and they are a time when the people are reminded of the love and grace of God. The Christmas season is a time of joy and peace, and it is a time when the people are united in the love of Christ.

Church, Home Devotions Show Holy Meaning Of The Holiday

Stettler, Dec. 18.—The Christmas season is a time of joy and devotion. The church and home are filled with the spirit of the holiday. The church services are held every night, and the home devotions are a time of prayer and reflection. The children are busy with their Santa Magi, and the adults are busy with their Christmas preparations. The holiday is a time of giving and receiving, and the spirit of the season is felt everywhere.

Elks Win 9th Straight By Defeating Lacombe

The Elks of Stettler, Alberta, won their ninth straight victory over the Lacombe Elks in a hockey game played last night at the Stettler rink. The Elks won by a score of 10 to 2. The game was played in front of a large crowd of spectators. The Elks' forwards were in excellent form, scoring most of the goals. The Lacombe team played a solid game but was unable to keep up with the Elks' attack. The Elks' defense was also very strong, preventing the Lacombe team from scoring many goals. The game was a well-fought contest and the Elks' victory was well-deserved.

HERE'S HOPING

Many of the people who read this paper will have been disappointed in the Stettler Independent's recent editorial on the proposed new Stettler hospital. The paper's position was that the proposed hospital was a good thing, but that it was not a good thing for the community as a whole. C.N.R. Freight Revenues Up But Passenger Business Down

C.N.R. Freight Revenues Up But Passenger Business Down
The Canadian National Railway (C.N.R.) reported a significant increase in freight revenues for the first three months of 1983, but a corresponding decline in passenger business. Freight revenues rose by 15 percent compared to the same period last year, while passenger revenues fell by 10 percent. The increase in freight revenues was attributed to higher rates and increased volume of shipments, particularly in the automotive and industrial sectors. Passenger business, however, continued its downward trend due to competition from airlines and the decline in long-distance travel. C.N.R. officials noted that while freight remains a strong source of revenue, the passenger division faces ongoing challenges in maintaining its market share.

Income Tax And Incomes

Income Tax And Incomes
The average Canadian family's income tax liability for 1982 is expected to be \$1,000, according to a survey by the Canadian Tax Federation. This represents a 10 percent increase from the previous year. The survey also indicates that the average family's income has risen by 5 percent, while the average tax rate has increased by 2 percent. Tax experts note that the increase in income tax is primarily due to higher marginal rates and the elimination of certain tax credits. They advise taxpayers to consult with a professional advisor to explore potential tax-saving strategies.

Real Estate Development Plans

Real Estate Development Plans
A major real estate development project in the downtown core of St. John's is set to begin construction in the spring of 1983. The project, known as the 'Downtown Core Redevelopment,' involves the construction of a new office building and the renovation of existing structures. The developer, a consortium of local and international firms, expects the project to create 150 new jobs and increase the city's tax base. The project is a key component of the city's long-term urban planning strategy to revitalize the downtown area.

New Shopping Centers

New Shopping Centers
A new shopping center is planned for the northern end of the city, with construction set to start in the summer of 1983. The center will feature a variety of retail stores, a food court, and parking for over 500 cars. The developer, a local business group, aims to provide a convenient shopping destination for residents in the area. The project is expected to stimulate economic growth and attract new businesses to the region.

REVIEW OF THE YEAR - By Alan Murray

Top photo: A group of people at a social gathering. Middle photo: A person in a suit. Bottom photo: A person in a military uniform.

The year 1962 has been a year of significant events and changes. From the political arena to the social sphere, there have been many developments that have shaped the community. The Stettler Independent has been fortunate to cover these events in detail, providing our readers with a comprehensive look at the year.

One of the most notable events of the year was the Annual Meeting of Shareholders at the County Seed Cleaning Plant. This event brought together representatives from various agricultural organizations to discuss the state of the seed industry and to plan for the future. The meeting was held in a large hall and was attended by a large number of people.

Another major event was the Inaugural Meeting of the Prairie Grove Women. This meeting was held to discuss the needs and interests of women in the community and to plan for future activities. The meeting was held in a large hall and was attended by a large number of women.

The year has also seen the passing of several notable figures. John Doe, a prominent businessman and community leader, died on Tuesday, January 29, 1963. His death was a great loss to the community. Another notable figure, Jane Smith, also passed away during the year. Her death was also a great loss to the community.

Despite the challenges of the year, the community has shown great resilience and strength. The Stettler Independent has been proud to be a part of this journey, providing our readers with the news and information they need to stay informed. We look forward to continuing to serve the community in the years ahead.

The Stettler Independent is a publication that is committed to providing our readers with the highest quality news and information. We strive to be a trusted source of information for the community and to be a reflection of the community's values and interests. We are grateful for the support of our readers and look forward to continuing to serve them in the future.

A black and white photograph of a group of seven young people, identified as the 'Smoothheads of Seattle High'. They are standing on a wooden structure, possibly a bridge or a walkway, with a cityscape visible in the background. The group consists of four young men and three young women, all dressed in casual attire typical of the mid-20th century. They are arranged in a line, with some standing slightly behind others, creating a sense of depth. The lighting is bright, suggesting a sunny day. The overall tone of the photograph is candid and informal.

Partners shown are the two candidates for the High School Annual Board: David James from Sharon Town and Herbert Elmer Webber from the Maine State School.

TWO RE-ELECTED AT COUNTY ANNUAL MEETING

Mr. J. McLeod and J. McLeod, the two re-elected members of the Stettner County Board, were elected at the annual meeting of the board held at the Stettner Hotel on February 19, 1968. The meeting was attended by a large number of board members and guests. The board members were elected for a term of three years. The board is responsible for the management of the county's affairs, including the collection of taxes and the provision of services to the residents of the county.

Higher Assessment Does Not Mean Higher Taxes

The Stettner County Board has announced that the higher assessment does not mean higher taxes. The board has decided to keep the tax rate the same as last year, despite the fact that the assessment has increased. This decision was made to ensure that the residents of the county are not burdened with higher taxes. The board believes that the higher assessment is necessary to ensure that the county's services are properly funded.

**A Most Effective Remedy For
Arthritic, Rheumatic and Sciatic Pains
IT'S NEW IT'S EXCELLENT**

BARNEY DOW HAS DONE THIS FOR ME

I am 72 years old and have been lame since I was a girl. I was crippled in my hands and feet. I have had operations on my hips and spine in the hospital, at Toronto, but to obtain some relief I have used Barney's Ointment.

After the first week I have been having these new pains relieved with Barney's, and undoubtedly you can't hope to obtain such relief with anything else. I have been using Barney's Ointment for the last three months and in this short time these new pains have been completely relieved. I am able to use my crippled hands and joints much more freely.

OBITUARY

STANLEY - One of the most respected and successful business men in the Stettler community, Stanley died at his home in Stettler, Alberta, on February 28, 1966, at the age of 78.

Stanley was born in Stettler, Alberta, on March 1, 1888. He was the son of Mr. and Mrs. J. H. Stanley. He was educated in the Stettler Public Schools and attended the University of Alberta, where he received a Bachelor of Arts degree in 1910.

Stanley was a member of the Stettler Rotary Club, the Stettler Chamber of Commerce, and the Stettler Lions Club. He was also a member of the Stettler Golf and Country Club.

Stanley was a successful businessman and was the owner of the Stanley Hardware Company, which he founded in 1915. The company was one of the largest and most successful hardware stores in the Stettler area.

Stanley was a devoted family man and was survived by his wife, Mrs. J. H. Stanley, and three children: Mr. J. H. Stanley, Jr., Mr. J. H. Stanley, III, and Mrs. J. H. Stanley.

Funeral services will be held at the Stettler United Church on Friday, March 4, at 10:00 a.m. The Rev. J. H. Stanley will officiate. Burial will be in the Stettler Cemetery.

Superintendent's Report to Ratepayers' Annual Meeting

The Stettler Public Utilities Board held its annual meeting on February 28, 1966, at the Stettler United Church. The meeting was attended by the Superintendent, Mr. J. H. Stanley, and a number of ratepayers.

Mr. Stanley presented a report on the activities of the Board during the past year. He stated that the Board had been successful in maintaining the water supply and in improving the sewerage system.

Mr. Stanley also presented a report on the financial activities of the Board. He stated that the Board had been successful in maintaining a balanced budget and in paying off its debts.

The meeting was held in the Stettler United Church, which is the home of the Stettler Public Utilities Board. The meeting was held at 7:00 p.m. and lasted for about two hours.

Shipping Lineback in Cold Weather

Shipping Lineback in Cold Weather

A new weather-proofing process has been developed by the shipping lineback in cold weather. This process involves the use of a special material that is applied to the hull of the ship. This material is designed to protect the hull from the cold weather and to prevent the ship from becoming stuck in the ice. The shipping lineback is a very important part of the shipping industry and it is always looking for ways to improve its operations.

Caring and Press

Looking over the shoulder of the press is a task that is not always appreciated. The press is a very important part of our society and it is always looking for ways to improve its operations. The press is a very active organization and it is always looking for ways to help the people of the city.

Our Fine Young People

Our fine young people are the future of our society. They are the ones who will carry on the traditions of our society and who will make the world a better place. We need to make sure that they have the best possible education and that they are able to make a contribution to society.

Dreams Of Home

Dreams of home are a very important part of our lives. They are the dreams that give us the strength to overcome our difficulties and to achieve our goals. We need to make sure that we have a good understanding of our dreams and that we are able to make them a reality.

Sugar and Spice

Sugar and spice are two of the most important ingredients in our lives. They are the ingredients that give our lives the sweetness and the spice that we need to live. We need to make sure that we have a good understanding of our sugar and spice and that we are able to make them a reality.

Have You Considered?

Have You Considered?

Have you considered the importance of the press? The press is a very important part of our society and it is always looking for ways to improve its operations. The press is a very active organization and it is always looking for ways to help the people of the city.

Who Remembers When?

Who remembers when? This is a question that is always asked. It is a question that is always asked because it is a question that is always asked. We need to make sure that we have a good understanding of who remembers when and that we are able to make them a reality.

1932 - 10 YEARS AGO

1932 - 10 YEARS AGO. This is a section that provides information about the events of 1932. It is a section that is always read because it is a section that is always read. We need to make sure that we have a good understanding of the events of 1932 and that we are able to make them a reality.

ARE YOU OBSOLETE?

Is Your Business Out of Date?

Are You Obsolete?

Are you obsolete? This is a question that is always asked. It is a question that is always asked because it is a question that is always asked. We need to make sure that we have a good understanding of who is obsolete and that we are able to make them a reality.

Speaker Tells Board of Trade Drug Prices Not High

Pharmaceutical prices have not risen as much as the general price level, according to a speaker at the Board of Trade meeting last night. Dr. J. H. Macdonald, president of the Stettler Board of Trade, told the group that drug prices are still lower than they were a few years ago. He said that the Board of Trade should be concerned with the general price level, but not with the price of drugs. He said that the price of drugs is determined by the cost of production and the cost of distribution. He said that the price of drugs is not high, and that the Board of Trade should not be concerned with it.

Governor's First Report

The report for the year 1962, which was presented to the Stettler Board of Trade last night, was a very good one. The report was presented by the Governor, who said that the year had been a very successful one for the province. He said that the economy was strong, and that the people were happy. He said that the government was doing a good job, and that the future was bright. He said that the people should be proud of what they had achieved, and that they should continue to work hard for the future.

Cow Quickly Sold

A cow which had been kept in the Stettler area for some time, was quickly sold to a buyer from the United States. The cow was a very good one, and it was sold for a very good price. The buyer said that he was very happy with the cow, and that he was looking forward to using it for some time.

E. Walker Speaks to Red Willow H & S

E. Walker, a well-known speaker, gave a talk to the Red Willow H & S group last night. He talked about the importance of the group, and about the things that they should be doing. He said that the group was very important, and that they should be proud of what they had achieved. He said that they should continue to work hard for the future, and that they should be happy with what they had done.

Ask For Doctor

A doctor is needed in the Stettler area. The doctor should be a good one, and he should be able to take care of the people in the area. The doctor should be able to take care of the people in the area, and he should be able to take care of the people in the area. The doctor should be able to take care of the people in the area, and he should be able to take care of the people in the area.

Choosing A Good Bull

Choosing A Good Bull
 When the time comes to select a bull for your herd, it is important to choose a good one. A good bull should be healthy, strong, and have a good pedigree. It should also be a good sire, meaning it should produce good offspring.

Search For Genetic Laws In Diabetes

Diabetes is a complex disease, and researchers are looking for genetic factors that may contribute to its development. Studies have shown that certain families have a higher incidence of the disease, suggesting a hereditary component.

The search for genetic laws in diabetes is ongoing, and researchers are using various methods to identify the genes involved. This research may lead to better treatments and prevention strategies.

Understanding the genetic basis of diabetes is a key goal in medical research. It could help doctors identify people at risk of developing the disease and provide them with early intervention.

Genetic studies of diabetes have revealed some interesting findings. For example, certain mutations in specific genes have been linked to the disease in some populations.

These findings are being used to develop new tests and treatments. The hope is that this research will lead to a better understanding of the disease and its causes.

The search for genetic laws in diabetes is a complex task, but it is one that is being pursued with great enthusiasm. Researchers are working hard to uncover the secrets of this common disease.

As more research is done, we will learn more about the genetic factors that influence diabetes. This knowledge will be invaluable in the fight against the disease.

The search for genetic laws in diabetes is a journey that is still in its early stages. But with the dedication of researchers and the support of the medical community, we are confident that we will find the answers we need.

What does it mean to be rated?

Not long ago men and women with ordinary every day lives, tuberculosis or diabetes were unable to obtain life insurance. Today it is possible for many of these people to be accepted in a special premium classification. Technically speaking they are said to be "rated" policyholders. For many years Manufacturers Life has contributed leadership in this special field. Today we are well known for our progressive outlook and for the favorable premium rates being offered.

Electric Clothes Drying

CLEAN! Electric clothes drying is clean as electric light! It gives you easy, "just right" results in any weather—rainy weather, winter weather or sunny weather!

"JUST RIGHT!" for white clothes. Electric drying keeps them sparkling white, and looks to all conditions.

"JUST RIGHT!" for colored clothes. Electric drying keeps them bright, and never has them fade to half one and vital.

Try electric clothes drying—it's the modern, automatic way to end those washday, wringday woes!

Helping you to live better... electrically

YOU BUILD ALBERTA WHEN YOU BUY ALBERTA-MADE PRODUCTS

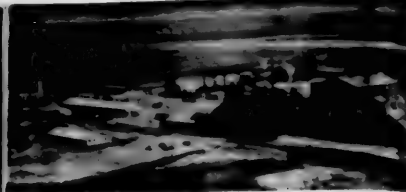

YOU

- Put money in the hands of your own customers.
- Create more jobs for Albertans—Albertans.
- Save TAX PAYERS out of TAX BUCKS. (Savings—helping your own tax burden.)
- Put money directly into local circulation for use by local industry and business.
- Provide a live job for your own, or your neighbor's, children.
- Increase the volume of local business and enable business to contribute more to municipal taxes.
- Make possible the growth and development of small industries.
- Develop the business and industrial potential of the Province.

Changing Skyline

Across the broad face of Alberta, a wave of steel is being rolled against the skyline as new manufacturing plants are being built. The skyline is being changed by the steel mills. It is a new skyline. The province has moved from a largely agricultural economy to a diversified industrial economy.

The drilling rig symbol of Alberta's petroleum boom.

Federated Co-op Mills Stores Across Prairies

Development in the Prairie Provinces has created a new type of co-operative movement. Federated Co-op Mills, a chain of co-operative stores, is the result of this movement. The stores are located in Regina, Saskatoon, and Winnipeg. They are owned and operated by the co-operators themselves. The stores offer a wide variety of goods at low prices. They are a great help to the co-operators in their daily lives. The stores are a symbol of the co-operative movement in the Prairie Provinces.

Petroleum Association Voice Of Oil Industry

The Petroleum Association of Canada is the voice of the oil industry in Canada. It represents the interests of the oil producers, refiners, and consumers. The association works to promote the oil industry and to ensure that the interests of all parties are protected. The association is a non-profit organization that is funded by the oil industry. It has a long history of service to the oil industry and the Canadian people.

helping the economic development of Alberta

Competition is the life-force of the petroleum industry which plays such a vital part in Alberta's - and Canada's - economic life today. In every phase of the industry, from exploration and development to the marketing of the end-product, competition keeps petroleum progress moving.

"Remember the Winter of '62"

This past winter is still remembered as one of Alberta's long, cold winters - but if you think of one of the 12 Colville communities, you'll find that National Gas made winter-draft a little more comfortable. Today, these services are no longer limited to a few large cities in Alberta.

It is important for consumers of energy, major Alberta communities, towns, hamlets and villages. Each community and each consumer should receive from the same high standard of service...

The Members Are The People Who Own The CO-OP

It is the individual Co-op members who build the value of most all the way through. By working together for mutual benefit, Co-op members have come to own more than a single retail store. Under our Co-operative ownership and operate their own wholesale organizations, refinery, oil wells, tanker trucks and rail cars - as well as extensive warehouses. Benefits are made through Co-operative ownership! What are you doing? Membership is open to all!

Industrial Outlook Bright

the 1970s, the Soviet Union has been able to maintain a high level of economic growth, despite the fact that it has been unable to develop a strong industrial base. This is due to a number of factors, including the fact that the Soviet Union has been unable to develop a strong industrial base, and the fact that it has been unable to develop a strong industrial base.

"Burying Alberta" Spurs Growth

From the early days, when the first immigrants came to the United States, the country has been a place of opportunity and hope. It has been a place where people from all over the world have come to find a better life. The United States has been a place where people have been able to start new lives, to build new homes, and to create new opportunities for themselves and their families. The United States has been a place where people have been able to escape poverty, to escape oppression, and to escape the dangers of war. The United States has been a place where people have been able to find freedom, to find justice, and to find a better future for themselves and their children. The United States has been a place where people have been able to make a difference in the world, to make a difference in the lives of others, and to make a difference in the history of the world. The United States has been a place where people have been able to live and to thrive, and where they have been able to make a difference in the world.

1. The first step in the process of creating a new product is to identify a market need. This is often done through market research, which involves gathering information about the target market's needs and preferences. 2. Once a market need has been identified, the next step is to develop a concept for the new product. This involves creating a detailed description of the product, including its features, benefits, and target market. 3. The third step is to conduct a feasibility study. This involves assessing the technical, financial, and market viability of the product concept. 4. If the feasibility study is positive, the next step is to develop a business plan. This involves creating a detailed financial and marketing plan for the new product. 5. The final step is to launch the product. This involves creating a marketing campaign to promote the product and distributing it to the target market.	1. The first step in the process of creating a new product is to identify a market need. HOW MANY HAVE USED A BANK LOAN?

More than ever before—because the chartered banks have on their books more commercial and personal loans than ever before. Commercial loans to help keep the wheels of industry moving. Personal loans for a wide variety of individual and family purposes. At last count, more than 1,000,000 men and women were making use of some form of personal loan for some worthwhile purpose. Year by year, more people discover the ease and convenience of borrowing from a bank. It's good business to see your local bank manager when you stand in need of financial help.

THE TWO MOST EFFICIENT PACKAGES ON THE FARM

The egg case first had a better and more efficient way to produce greater egg production.

From 140 grams to 140 grams makes milking your grass green in complete in loading a dozen. Just flip the egg off a cartilage and drop it in the grass. It's done in seconds. No more time and electricity waste. No dirt and over your grass. From 140 grams in cartilage means extra production for your valuable farm equipment.

Get a supply from your nearest farm agent and see for yourself.

The following are the most common types of problems that are encountered in the design of a system:

- 1. **Performance problems**—These are problems that arise when the system is unable to meet the performance requirements of the user. This can be due to a number of factors, including poor design, inadequate hardware, or inefficient algorithms.
- 2. **Reliability problems**—These are problems that arise when the system is unable to operate reliably. This can be due to a number of factors, including poor design, inadequate hardware, or inefficient algorithms.
- 3. **Security problems**—These are problems that arise when the system is unable to protect the data and resources it contains. This can be due to a number of factors, including poor design, inadequate hardware, or inefficient algorithms.
- 4. **Interoperability problems**—These are problems that arise when the system is unable to interact with other systems. This can be due to a number of factors, including poor design, inadequate hardware, or inefficient algorithms.
- 5. **Usability problems**—These are problems that arise when the system is unable to be used by the intended users. This can be due to a number of factors, including poor design, inadequate hardware, or inefficient algorithms.

The most common type of problem is performance problems. This is because performance is often the most critical factor in the design of a system. If a system is unable to meet the performance requirements of the user, it will be unusable. Therefore, it is essential to design a system that can meet the performance requirements of the user.

A large portion was accounted for by the relatively small number of respondents. Because of the great diversity in background and training, the respondents were divided into three groups: those with a background in the physical sciences, those with a background in the biological sciences, and those with a background in the social sciences. The results of the survey are presented in the following sections.

GRASSHOPPER CONTROL

Net cost price to all farmers is Five Dollars per gallon. Please note the County of Stettler contributes fifty per cent of the cost of Alsatian.

Information regarding the use of Malathion and Dieldrin can be obtained from your local District Agriculturist's office, Field Supervisor of the County of Stettler, or the Field Crops Branch, Department of Agriculture, Edmonton.

Look at what the Stoltenberg Government has done for farmers in the Aquatic Constituency!

INCREASED and STABILIZED PRICES on BUTTER.	Increased loans to farmers
STABILIZED MEAT PRICES	Stabilized market prices
INCREASED RETURNS ON BEEF CATTLE.	

Besides That...

Your Progressive Conservative Government has done a GOOD SELLING job in marketing of your farm produce. When the Conservatives came to office in 1957 grain quotas were limited to a few bushels per acre. There were millions of bushels of unsold grain on the farms and farm income suffered. Today, there are open quotas at every delivery point in Canada. That means MORE CASH and MORE MONEY in the pockets of farmers in Acadia Constituency.

Remembrance

There was little to be seen of the 1966 Remembrance Day ceremonies in the city. The only thing that was seen was a small group of people gathered in front of the Vancouver Art Gallery for the unveiling of a statue of a soldier. The statue was unveiled by the mayor and a group of veterans. The ceremony was held in the morning and the weather was clear.

World shipping has to return up three days to feed Canadian wheat, a result of the action policies of Prime Minister Diefenbaker's government. These are:

- Aggressive export sales have made Canada top wheat seller in world markets (at which Canada now holds 39%);
- Wheat surplus has been reduced 48%;
- Cash advances available for farm-stored grain;
- Unharvested grain assistance . . . drought relief . . . crop insurance . . . all introduced.

Proud of great strides forward taken by the ACTION Government of Prime Minister Diefenbaker.

IN ADDITION TO ALL THIS OUR PROGRESSIVE CONSERVATIVE GOVERNMENT HAS COMPLETED TWO P.F.R.A. PROJECTS TO WHICH THE FEDERAL GOVERNMENT HAS CONTRIBUTED APPROXIMATELY \$400,000 OR NEARLY HALF A MILLION DOLLARS IN ACADIA CONSTITUENCY.

Besides these sums, Winter Works Projects have resulted in the spending of another \$200,000.00 in Acadia Constituency, and your Federal Government has contributed to all roadside tourist camps.

ACADIA CONSTITUENCY NEEDS JACK HORNER AND THE PROGRESSIVE CONSERVATIVES RETURNED FOR CONTINUED PROGRESS IN THE YEARS AHEAD.

Horner Wins In Acadia

Local tennis player, Horner, won the Acadia tennis tournament, held at the Acadia Hotel, last weekend. Horner, a local resident, defeated his opponent in a hard-fought match. The tournament was held over a two-day period, with Horner emerging as the victor in the final match. Horner's win was a significant achievement for him, as he had never before won a tournament of this caliber. The Acadia tennis tournament is one of the most prestigious in the region, and Horner's victory is a source of pride for the local tennis community.

Legal To Hire Children From 12 To 15 Years

It is now legal to hire children from 12 to 15 years of age in certain types of work, according to a new regulation. The regulation, which was issued by the Department of Labour, allows employers to hire children in non-hazardous work, such as clerical or light manual work. However, the regulation also sets strict limits on the hours and conditions of work for these young employees. Employers must ensure that the work is suitable for the child's age and that it does not interfere with their education. The regulation is designed to protect the rights of young workers while also providing them with the opportunity to gain valuable work experience.

4-H SHOW BEEF SALE at IGA

THURS., FRI. & SAT., JUNE 21, 22 & 23

Prime SHOW BEEF raised in the finest tradition of your local 4-H Clubs and NOW featured at your IGA Store at low, low prices! IGA always FIRST with the BEST...to bring you the ECONOMY you need to balance your food budget!

4-H Club Motto "Learn to do by doing"

Since the inception of the 4-H Club many years ago, this worthwhile organization has grown to embrace many thousands of youths on an international scope.

The first club was organized in Alberta in 1916 by the Alberta Department of Agriculture. Since that time membership has grown to 7,000 in 500 clubs throughout the province. The basic purpose of 4-H is to train youths between the ages of 12 to 21 years in Agriculture, home making, citizenship and leadership. Hundreds of men and women throughout the province devote their time and energies to help the 4-H clubs maintain their high standards, and keep their pledge.

I pledge: My head to clear thinking, My heart to greater loyalty, My hands to larger service, My health to better living. For my Club, My Country and Community.

Wood Control With Chemicals

Wood control with chemicals is a new method of controlling wood-boring insects. This method involves the use of chemicals to kill the insects and their eggs. The chemicals are applied to the wood in the form of a spray or a paste. The chemicals are then absorbed by the wood and kill the insects and their eggs. This method is very effective and is a good alternative to traditional methods of wood control.

Alberta Centres Will Mark 50th Anniversary

The Alberta Centres will mark their 50th anniversary on June 11, 1968. The Centres were founded in 1918 and have since then been a major force in the development of the province. They have provided a wide range of services to the community, including social, cultural, and educational programs. The Centres are proud of their long history and look forward to continuing their work for many years to come.

Canada's Citizen-Soldiers Move on Well Fed Stomachs

Feeding more than 1,000 full-course meals a day makes up the problem of feeding the 1,000 soldiers and officers of the No. 23 Military Group during their six-week summer training stint at Camp Waterwright.

The Edmonton and northern Alberta men and women of the group can largely thank the efforts of their food services officer (WAC) Capt. D. J. B. Boudreau of Edmonton for a week of good food and lots of it.

Captain Boudreau, along with Regular Army kitchen supervisor Quartermaster Sergeant Jack Carney and 30 cooks, makes the fresh preparation of 1,000 members of the outfit eating in three separate messes — in the army canteen, dining hall.

Members of the group come from Edmonton, Calgary, Fort Saskatchewan, Whitehorse, V.T., Wetaskiwin, Devon, Beaumont, Vancouver, Vancouver, W. Paul, Grande Prairie, Poncha, Banora, Creek, Peace River and Fort Smith.

With the exception of four (WAC) non-commissioned officers, all the cooks are members of the last national survival course held in northern Alberta, courses who were given a five-week cook's course after joining the local militia units.

"They must like our product," says Capt. Boudreau. (Continued on Page 13)

Gadget Recalls Old History

—Town's Name Changed

By H. S. PETERSON
Saskatoon, Alberta

HEAVY READERS of The Western Weekly Supplement will recognize the above gadget — some may even have a similar one lying around their premises. It is a log holder that holds the log and a stick so that one man can lift it with a pole or scoop. Many merchants gave these to their customers at Christmas in lieu of calendars. This one was obviously such a gift. The interesting story centres on the name of the town, "Lewington." Did you ever hear of it? H. S. P. Petitioner of Graham explains it in the accompanying story on this page.

Does A Dead Horse Walk?

By JIMMY JOHNSON
Calgary, B.C.

From camp we had brought the sheep for a couple of years. We saw many sheep, some pretty big ones, too, where we worked in the bush cutting pulp and posts, near Calgary.

Back in camp with the horses passed away, and we had right from upper end of camp, we rode around the fire. We saw a spotted animal, rather from the valley for below and captured us, perceiving that July coming in the Solstice. For a long while we saw again. The silence was interrupted only by the snoring fire and the howling cry of a pined wanderer. Then one of the men stirred.

"There was a big hole," he said, "that black bear we scared up in the berry patch." "Yes," agreed another, "but this time of year, with full bellies, they're not troublesome."

GLOOMY TALK OF DAYS

The talk drifted on to hours, to stories of their coming, spread and drought. The old-timers gave calmly eloquent in their accounts and descriptions, and finally silence fell again. I turned to my neighbor, "Well, John, surely you have a bear story, huh?"

He smiled and answered slowly, "Well, I have a story — but a bear story? You'll have to decide that for yourself." Settling his self, his eyes on the flames, he began:

"I happened a good many years ago, about 1911, as I remember, I was young

then, only been over from Sweden for a couple of years. We saw many sheep, some pretty big ones, too, where we worked in the bush cutting pulp and posts, near Calgary.

Nicholas Nelson, an old bushman, had his cabin up the trail from ours, in a kind of ravine. He lived alone there, and raised a few pigs and chickens. Sort of retired, I guess you'd say. The Bush Country Lumber Co. had given him an old barn, part rotted, rather than having to destroy it. Nicholas believed it had been built by a couple of men later he came to see it, and told us the barn had died.

"It's right outside the door," he said dispassionately. "And I don't know how I'm to get the 4 — thing out of there. Could you give me a hand, John?"

WAS IT IMPOSSIBLE?

I agreed, thinking we'd have to cut it up and push it up the trail and out of the ravine. Next morning early I walked the two miles to his cabin and hammered on the door. There was no answer about that I could see, dead or alive. I heard Nick having himself out of bed, and then he opened the door.

"What did you do with it, Nick?" I asked.

"The with it? Are you blind? It's right over — by God!" he exclaimed, staring stupidly at the spot where the horse had lain.

I'll never forget the look of him — his face was ashen, and his eyes were red.

The finding of a log holder among the possessions left by a Graham old timer, Fred Hamilton, who died in 1901, has thrown an interesting light on the early history of this famous grain belt.

It will be noticed in the accompanying picture of the log holder that R. & R. Lalanston was a diversified firm offering hardware, hardware, furniture and undertaking services. It will also be noticed that the name of the town is "Lewington."

For the pioneers who first settled in the district, the word had a very clear meaning. It meant the point where the road between Fort Hamilton and Calgary left the creek. This road was the main highway of those days and over it passed some colorful traffic, north-bound North-West Mounted Police, westward in leather chaps, settlers in covered wagons and Indians in anything that was handy.

Then with its tremendous crops of grain, the town began to grow. A new generation came along who took a different meaning from the word "Lewington." They decided it carried ominous overtones suggesting rubbish or garbage.

After much careful pondering, some unknown citizen proposed the very old name of Graham, the Little word for "grain" — which is just another word for "grain" — never knew when a Little Latin word will come in handy, even in a wild, new land.

Today Graham is still living up to its Little tradition. It remains one of the best grain producing centers in the west and also a fine ranching nation.

He stood gazing in utter disbelief, his brains clanking at his side.

We began looking around, and there in the back field, a few yards from the cabin we saw them — two tracks, mouse-size ones, but only of the two hind feet. Where the horse had been, and in the grass there, there was a hole in the red dirt of the trail which had up out of the rut, on followed the great prints in the top where they ended in the trailer. Nicholas had been right, according to himself at the cabin, and now, with one hairy glance of the creek beyond, he turned and half-way back down to the cabin, with one on his back.

I spoke first. "Maybe it was a grizzly — but with so many that would walking on his hind legs..."

"A horse," whispered Nicholas. "Harry a whole horse!" and he shook his head.

"A small, skinny old horse," I reminded him. "And one thing is certain. That dead horse didn't just get up and walk away."

John stopped suddenly, and looking around at us, he grinned.

"So was it a bear story? We didn't see a bear, and never afterwards did we see one big enough to have made those tracks," he laughed. "I'll tell you one thing, though. Nicholas had an old gun that somebody had given him. He couldn't shoot with it, but he carried it with him every time he stepped outside his door for the next month."

Canada's Citizen-Soldiers Move on Well Fed Stomachs

Planning those first 1,000 full-course meals was one of the problems of feeding the 1,000 and civilian members of the 23rd British Group during their one-week summer training camp at Camp Wainwright.

The Edmonton and northern Alberta men and women of the group can largely thank the efforts of their food services officer (CWO) Capt. D. J. B. Hurd for the success of a week of good food and life at it.

Captain Hurd, along with Regular Army kitchen supervisor Quartermaster Sergeant Jack Carney and 30 cooks under the leadership of 1,000 members of the unit, are in charge of the kitchen — as the camp calls its dining hall.

Members of the group come from Edmonton, Calgary, Fort Saskatchewan, Whitehorse, V.T., Wetaskiwin, Devon, Beaumont, Vermilion, Vegreville, St. Paul, Grande Prairie, Ponoka, Brooks, Lethbridge, Peace River and Fort Smith.

With the exception of four CWOs, non-commissioned officers of all ranks are members of the last national service course held in northern Alberta, courses who were given a five-week cook's course after joining the last militia units.

"They must like our product," says Capt. Hurd.

Gadget Recalls Old History

By H. G. FENNELL
Groun, Alberta

GRAY BEADERS of The Western Weekly Supplement will recognize the above gadget — some may even have a similar one lurking around their granaries. It is a bag holder that holds the ends of a sack so that one man can fill it with a full or empty. Many merchants gave them to their customers at Christmas in lieu of calendars. This was obviously such a gift. The surprising story centers on the name of the town, "Laurie." Did you ever hear of it? It is a village of Groun, Alberta. It is in the accompanying story on this page.

Does A Dead Horse Walk?

By JERRY JOHNSON
Groun, B.C.

From camp we had brought the sheep for breakfast, and we had been able to get some. But having played from our camp house into pits that were filled again and again, while we looked and stared, watching for the horses beneath green leaves.

Back in camp with the horses packed away, and our little light from supper out of doors, we relaxed around the fire. Warm air spiraled upward from the valley below and settled on, pervading that July evening in the kitchen. For a long while we were quiet. The silence was interrupted only by the clapping fire and the humming cry of a plumed woodpecker. Then one of the men observed, "There was a big hole," he said, "that black bear we moved up in the heavy patch."

"Yes," agreed another, "but this time of year, with full bellies, they're not treacherous."

BLASPHEMOUS TALK OF GODS

The talk drifted on to bears, to stories of their cunning, speed and strength. The old-timers gave suddenly eloquent in their accounts and descriptions, told finally almost all again. I turned to my neighbor, "Well John, surely you have a bear story, too?"

He smiled and answered slowly, "Well, I have a story — but a bear story? You'll have to decide that for yourselves," looking him and, he came on the ground, he began.

"It happened a good many years ago, about 1911, as I remember, I was young

then, only been over from Seattle for a couple of years. We saw bears often, some pretty big ones, too, where we worked in the bush cutting pulp and posts, near Yellowknife.

Nicholas Nelson, an old prospector, had his cabin up the trail from ours. It is a kind of cabin. He lived alone there, and raised a few pigs and chickens. But of course, I guess you'd say. The first Easterner Lumber Co. had given him an old house, but somehow, rather than having to destroy it, Nicholas had killed it with his axe, but a couple of weeks later he came to see us, and told us the house had died.

"It's right outside the door," he said disgustedly. "And I don't know how I'm to get the 6 — thing out of there. Could you give me a hand, John?"

WAS IT IMPOSSIBLE?

I agreed, thinking we'd have to cut it up and push it up the trail and out of the cabin.

Next morning early I walked the two miles to his cabin and hammered on the door. There was no answer about that I could see, dead or alive. I heard Nick having himself out of bed, and then he opened the door.

"What did you do with it, Nick?" I asked.

"Go with it? Are you blind? It's right over — My God!" he exclaimed, staring stupidly at the spot where the house had been.

"I'll never forget the look of him — his face was underneath that, with long red whiskers.

For the place which first settled in the district, this word had a very clear meaning. It meant the point where the road between Fort Macleod and Calgary left the creek. This road was the main highway of those days and over it passed much colonial traffic, particularly North-West Mounted Police, customs in leather shoes, settlers in covered wagons and Indians in smoking that was heard.

Then with its tremendous crops of grain, the town began to grow. A new generation came along who took a different meaning from the word "Laurie." They decided it carried connotations suggesting rubbish or garbage.

Seeking Height of Adventure

Look out, he's coming down the mountain! One of the 500 members of the Alpine Club of Canada in top picture at left, there's all his high-speed rappelling technique at the annual summer climbing camp near Jasper, Alberta.

Here, climbers learn to use their ropes, eyes, brains and muscles — while enjoying one of the most exciting sports in the world. There is much to learn and often grunting takes; but there is also cooling treat of high breakfasts camp round the fire in the valley; the biting of cold and wind on the peaks. Small wonder the membership grows each year.

"Uniquer a mountain, conquer yourself" is the saying given to each down the climbers go into the high places and the grandeur of Canada's Rockies.

"Mountaineering is the art of going safely in dangerous places," said an old American guide. And, in the picture at bottom left, climbers pick up a bit more of that art. The instructor begins a demonstration of a fall into a crevice and recovery.

In the picture below a girl climber has a bedtime in preparation for a morning climb (about half the Alpine Club members are women) while further down another skilled climber sits in day — by reading Aristotle's "Ethics" and keeping imagination away at the same time.

Ocean waves have incredible power. They can hurl rocks weighing many tons onto the top of cliffs more than a hundred feet high. Waves can wash out steel structures as if they were built of mud.

Fith The Women-

Nickels Drop To a New Low

The nickel has certainly had its problems in the last few years.

In our neighborhood where we were just getting out of the war and not having enough who could expect a nickel in his pocket this year because of nickel shortage? Well, money was a sign of good wealth and might as well be the village where up to last year who could expect such a nickel as a matter of course, change his nickel into the pennies.

He has been popularly used on payment but at least the nickel has been the short term of circulation and not to be missed in the pocket where we all would expect to find it.

It is all enjoyed the nickel and the nickel is the nickel.

down village who have a little cash around in the village where up to last year who could expect such a nickel as a matter of course, change his nickel into the pennies.

Many delights available. One could purchase many, many delights of the country for a few cents. But the nickel has been the short term of circulation and not to be missed in the pocket where we all would expect to find it.

business drop appears for a cent round of business coming with writing on them came about as for the same price which was under the nickel. There was no flower just empty space. The nickel has been the short term of circulation and not to be missed in the pocket where we all would expect to find it.

I've been trying carefully hard to figure out what that nickel does today. Actually it is a degrading tax and treated differently, change the nickel into the pennies.

A nickel certainly does not buy the pig or the cow. It is a degrading tax and treated differently, change the nickel into the pennies.

However one of the most handling returns a nickel produces these days is a form in the nickel. It is a degrading tax and treated differently, change the nickel into the pennies.

The laundry nickel and the parking meter nickel have taken some of the dignity out of being and we have been so unfortunate.

-By Marie Macdonald

Let's get a little nibbler about this time and get the nickel back in the proper place. Founded off and worth something.

ANNOUNCING NEW FLEXI TOOTH

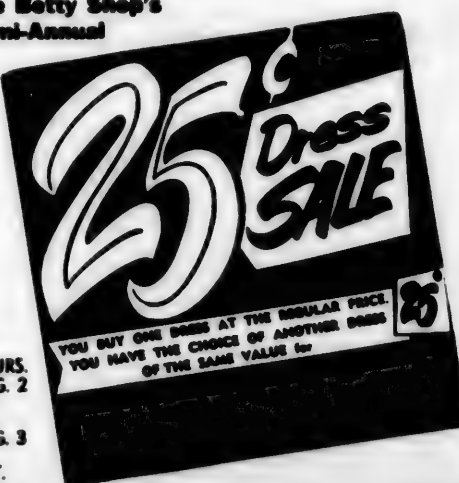

THE NEW HARVESTING TOOTH THAT CAN SAVE YOU BIGGER CROP PER ACRE

The Flexi Tooth, the remarkable flexible harvesting tooth that can save you more crop per acre. It can be lowered closer to the ground and will ride over or by-pass most obstacles, breaking lower rocks and clearing "chuffs" into the combine. Flexi Tooth is more durable than conventional steel teeth. These flexible plastic teeth with rounded tips are softer. Shrouded in rubber strips they result in quieter machine operation. The superior self-cleaning effect of the Flexi Tooth eliminates fast. Replacement teeth cost from 20% to 40% less than conventional steel teeth.

Letters To The Editor

Dear Editor,
I am writing to you to express my concern about the recent increase in the price of gasoline. The price has increased by 10 cents per litre, which is a significant increase for many people.

Streak Mosaic in Winter Wheat

The streak mosaic in winter wheat is a common problem in the Stettler area. It is caused by a virus that is spread by aphids. The symptoms of the disease include yellowing of the leaves and stunted growth. The disease can be prevented by using resistant varieties of wheat and by controlling the aphid population.

The Direct Selling Trend

It is a fact that the direct selling trend is continuing to grow in popularity. This is due to the fact that the direct selling method is a more efficient way of selling than the traditional method of selling through a retail store. The direct selling method allows the seller to sell directly to the consumer, thus eliminating the middleman. This results in a lower price for the consumer and a higher profit for the seller. The direct selling method is also more flexible than the traditional method, as the seller can sell in a variety of locations and at a variety of times. This makes it easier for the seller to find a market for their product. The direct selling method is also more personal than the traditional method, as the seller can build a relationship with the consumer. This can lead to repeat business and a higher level of customer loyalty. The direct selling method is a growing trend in the retail industry, and it is likely to continue to grow in the future.

Peer Slag Control

Peer slag control is a new method of controlling the slag in a blast furnace. It involves the use of a special slag control system that allows the slag to be controlled more precisely than in the traditional method. This results in a higher quality of slag and a lower level of slag loss. The peer slag control system is also more efficient than the traditional method, as it allows the slag to be controlled more quickly and with less effort. This makes it easier for the operator to manage the slag in the blast furnace. The peer slag control system is a new development in the steel industry, and it is likely to be widely adopted in the future.

Chemical Control On Tertiary Duckweed

Chemical control of tertiary duckweed, a pest of waterfowl, has been developed by the U.S. Fish and Wildlife Service. The new method, which uses a chemical called "Duckweed Control", is said to be the most effective yet developed for controlling this pest. The chemical is applied to the water in which the duckweed grows, and it kills the plant without harming the waterfowl. The new method is being tested in the U.S. Fish and Wildlife Service's waterfowl research station at the University of Maryland.

Migratory Bird Regulations Reflect Continued Decline In Duck Production

Regulations governing the hunting of migratory birds in the Northwest Territories have been revised to reflect a continued decline in duck production. The regulations, which were revised by the Department of the Environment, are designed to protect the remaining duck population and to ensure that the hunting of ducks is sustainable. The regulations are being implemented in the Northwest Territories, where duck production has declined significantly in recent years. The Department of the Environment is working to ensure that the hunting of ducks is sustainable and that the remaining duck population is protected.

Federation Of Agriculture Wants End Rail Abandonment

STETTLETON, Aug. 24 (UPI) — The Federation of Agriculture in Alberta is calling for an end to the abandonment of rail lines in the province. The federation says that the abandonment of rail lines is a major threat to the province's agricultural industry. It says that the abandonment of rail lines will result in the loss of jobs and income for many people in the province. The federation is asking the government to stop the abandonment of rail lines and to instead invest in the rail system.

On hay and pastures FALL - APPLIED FERTILIZERS GOES TO WORK EARLIER AND FASTER NEXT SPRING

This fall when you have your hay and pasture fertilized, you will find that the fertilizer goes to work earlier and faster next spring. This is because the fertilizer is applied in the fall, when the ground is still warm, and the fertilizer can get into the soil more easily. This means that the fertilizer will be available to the plants earlier in the spring, when they need it most.

Rainfall Totalled 15.8 Inches At Endiang

The Endiang area has received a total of 15.8 inches of rain since the beginning of the season, according to the Endiang weather station. This is the highest total for any area in the province, and is well above the normal average of 10 inches. The rain has been beneficial to the crops, and the water level in the Endiang river is now at a normal level. The rain has also helped to fill the reservoirs, which will be a great help when the dry season begins. The Endiang weather station is located in the town of Endiang, and it has been recording the rainfall since 1950. The station is one of the most accurate in the province, and its records are used by the government to plan for the future. The rain has been a great blessing for the people of Endiang, and they are all grateful to the weather gods for their help.

big, bold, beauty

This is what's new! ... a magnificent Thunderbolt racing in the historic 1964 Le Mans, with its coupe-back silhouette, super-lighting and power features, dominating the open-wheel wing-wayway circuit scene. Now the power jumps with the new Ford 1969 sports coupe, with its sleek lines, air conditioning and quality to cover the entire price. And the new Ford, the most best, quietest race of a hardtop, 1964, 1966, 1968, 1969, 1970, 1971, 1972, 1973, 1974, 1975, 1976, 1977, 1978, 1979, 1980, 1981, 1982, 1983, 1984, 1985, 1986, 1987, 1988, 1989, 1990, 1991, 1992, 1993, 1994, 1995, 1996, 1997, 1998, 1999, 2000, 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024, 2025, 2026, 2027, 2028, 2029, 2030, 2031, 2032, 2033, 2034, 2035, 2036, 2037, 2038, 2039, 2040, 2041, 2042, 2043, 2044, 2045, 2046, 2047, 2048, 2049, 2050, 2051, 2052, 2053, 2054, 2055, 2056, 2057, 2058, 2059, 2060, 2061, 2062, 2063, 2064, 2065, 2066, 2067, 2068, 2069, 2070, 2071, 2072, 2073, 2074, 2075, 2076, 2077, 2078, 2079, 2080, 2081, 2082, 2083, 2084, 2085, 2086, 2087, 2088, 2089, 2090, 2091, 2092, 2093, 2094, 2095, 2096, 2097, 2098, 2099, 2100, 2101, 2102, 2103, 2104, 2105, 2106, 2107, 2108, 2109, 2110, 2111, 2112, 2113, 2114, 2115, 2116, 2117, 2118, 2119, 2120, 2121, 2122, 2123, 2124, 2125, 2126, 2127, 2128, 2129, 2130, 2131, 2132, 2133, 2134, 2135, 2136, 2137, 2138, 2139, 2140, 2141, 2142, 2143, 2144, 2145, 2146, 2147, 2148, 2149, 2150, 2151, 2152, 2153, 2154, 2155, 2156, 2157, 2158, 2159, 2160, 2161, 2162, 2163, 2164, 2165, 2166, 2167, 2168, 2169, 2170, 2171, 2172, 2173, 2174, 2175, 2176, 2177, 2178, 2179, 2180, 2181, 2182, 2183, 2184, 2185, 2186, 2187, 2188, 2189, 2190, 2191, 2192, 2193, 2194, 2195, 2196, 2197, 2198, 2199, 2200, 2201, 2202, 2203, 2204, 2205, 2206, 2207, 2208, 2209, 2210, 2211, 2212, 2213, 2214, 2215, 2216, 2217, 2218, 2219, 2220, 2221, 2222, 2223, 2224, 2225, 2226, 2227, 2228, 2229, 2230, 2231, 2232, 2233, 2234, 2235, 2236, 2237, 2238, 2239, 2240, 2241, 2242, 2243, 2244, 2245, 2246, 2247, 2248, 2249, 2250, 2251, 2252, 2253, 2254, 2255, 2256, 2257, 2258, 2259, 2260, 2261, 2262, 2263, 2264, 2265, 2266, 2267, 2268, 2269, 2270, 2271, 2272, 2273, 2274, 2275, 2276, 2277, 2278, 2279, 2280, 2281, 2282, 2283, 2284, 2285, 2286, 2287, 2288, 2289, 2290, 2291, 2292, 2293, 2294, 2295, 2296, 2297, 2298, 2299, 2300, 2301, 2302, 2303, 2304, 2305, 2306, 2307, 2308, 2309, 2310, 2311, 2312, 2313, 2314, 2315, 2316, 2317, 2318, 2319, 2320, 2321, 2322, 2323, 2324, 2325, 2326, 2327, 2328, 2329, 2330, 2331, 2332, 2333, 2334, 2335, 2336, 2337, 2338, 2339, 2340, 2341, 2342, 2343, 2344, 2345, 2346, 2347, 2348, 2349, 2350, 2351, 2352, 2353, 2354, 2355, 2356, 2357, 2358, 2359, 2360, 2361, 2362, 2363, 2364, 2365, 2366, 2367, 2368, 2369, 2370, 2371, 2372, 2373, 2374, 2375, 2376, 2377, 2378, 2379, 2380, 2381, 2382, 2383, 2384, 2385, 2386, 2387, 2388, 2389, 2390, 2391, 2392, 2393, 2394, 2395, 2396, 2397, 2398, 2399, 2400, 2401, 2402, 2403, 2404, 2405, 2406, 2407, 2408, 2409, 2410, 2411, 2412, 2413, 2414, 2415, 2416, 2417, 2418, 2419, 2420, 2421, 2422, 2423, 2424, 2425, 2426, 2427, 2428, 2429, 2430, 2431, 2432, 2433, 2434, 2435, 2436, 2437, 2438, 2439, 2440, 2441, 2442, 2443, 2444, 2445, 2446, 2447, 2448, 2449, 2450, 2451, 2452, 2453, 2454, 2455, 2456, 2457, 2458, 2459, 2460, 2461, 2462, 2463, 2464, 2465, 2466, 2467, 2468, 2469, 2470, 2471, 2472, 2473, 2474, 2475, 2476, 2477, 2478, 2479, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500, 2501, 2502, 2503, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2514, 2515, 2516, 2517, 2518, 2519, 2520, 2521, 2522, 2523, 2524, 2525, 2526, 2527, 2528, 2529, 2530, 2531, 2532, 2533, 2534, 2535, 2536, 2537, 2538, 2539, 2540, 2541, 2542, 2543, 2544, 2545, 2546, 2547, 2548, 2549, 2550, 2551, 2552, 2553, 2554, 2555, 2556, 2557, 2558, 2559, 2560, 2561, 2562, 2563, 2564, 2565, 2566, 2567, 2568, 2569, 2570, 2571, 2572, 2573, 2574, 2575, 2576, 2577, 2578, 2579, 2580, 2581, 2582, 2583, 2584, 2585, 2586, 2587, 2588, 2589, 2590, 2591, 2592, 2593, 2594, 2595, 2596, 2597, 2598, 2599, 2600, 2601, 2602, 2603, 2604, 2605, 2606, 2607, 2608, 2609, 2610, 2611, 2612, 2613, 2614, 2615, 2616, 2617, 2618, 2619, 2620, 2621, 2622, 2623, 2624, 2625, 2626, 2627, 2628, 2629, 2630, 2631,

FALL FERTILIZE YOUR STUBBLE

As the summer season draws to a close, it is time to prepare your land for the coming year. The best time to fertilize is now, while the soil is still warm and the weather is still dry. This will allow the fertilizer to penetrate the soil and become available to the plants when they start to grow in the spring.

Alberta Summer Traffic Report

The Alberta Traffic Report for the summer of 1963 shows a significant increase in traffic volume compared to the previous year. This is due to a variety of factors, including the warmer weather and the longer daylight hours. The report also shows that there has been a decrease in the number of accidents, which is a positive trend. The Alberta Traffic Report is a valuable tool for understanding traffic patterns and for planning future transportation projects.

Canadians Now Eat More Meat Less Cereals, Dairy Products

There has been a marked increase in the consumption of meat and a corresponding decrease in the consumption of cereals and dairy products, according to a report by the Food and Agriculture Department.

The report, based on data from the 1959-60 period, shows that the average Canadian now consumes 114 pounds of meat per year, compared with 104 pounds in 1954-55.

At the same time, the average consumption of cereals has fallen from 114 pounds in 1954-55 to 104 pounds in 1959-60.

The report also shows that the average Canadian now consumes 114 pounds of dairy products per year, compared with 124 pounds in 1954-55.

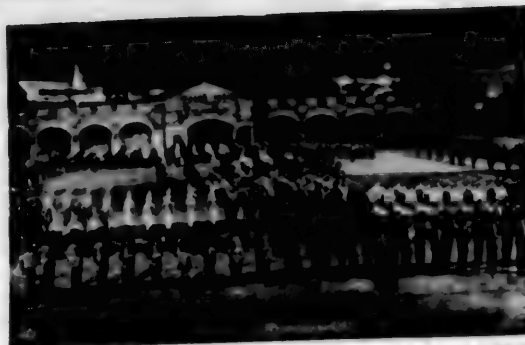

The Food and Agriculture Department says that the increase in meat consumption is due to a number of factors, including the fact that meat is now more readily available than in the past.

It also says that the decrease in cereal consumption is due to the fact that cereals are now more readily available than in the past.

Uniform Benefits A Matter Of Rights

Many workers are entitled to uniform benefits, but many are not aware of their rights. It is important for workers to know what benefits they are entitled to and how to obtain them.

Smoker Couple United by Ben L. Schwartz

SMOKER - GERLACE

Gerlance and Gerlance, who have been married for 10 years, were reunited after a 10-year separation. The couple had been living apart since 1952, when Gerlance moved to the United States. They were reunited in 1962, after Gerlance returned to Canada. The couple is now living together in Stettler, Alberta.

Canada's Disgrace

The issue of nuclear energy in Canada is a disgrace. The government has spent millions of dollars on nuclear energy, but has not been able to produce a single watt of electricity. This is a disgrace to the Canadian people, who have paid for this waste of money. The government should stop spending money on nuclear energy and instead focus on developing other sources of energy.

Approximately 1500

Approximately 1500 people are expected to attend the Stettler Co-op Store's 10th Anniversary celebration. The celebration will take place on Friday, October 12th, from 10:00 a.m. to 6:00 p.m. The store will be open from 10:00 a.m. to 6:00 p.m. on Friday, October 12th. The celebration will include a variety of activities, including a raffle, a quiz, and a presentation of awards. The store will also be offering special prices on a variety of goods.

FOR SALE

FOR SALE: 3.4 Five Plywood - \$2.95, White Board Ply - \$2.95, HEART Building Supplies - \$2.95. The store is located at 1000 Main Street, Stettler, Alberta. The store is open from 10:00 a.m. to 6:00 p.m. on Friday, October 12th.

Weekly Meditations

10.10.1962. This is a special day for many people. It is a day of reflection and meditation. We are encouraged to take time out of our busy lives to reflect on our actions and thoughts. This is a time to pause and consider the things that are most important to us. We are encouraged to be honest with ourselves and to seek truth. This is a time to grow and to learn. We are encouraged to be kind to ourselves and to others. This is a time to be grateful for all that we have and to look forward to the future with hope and faith.

Rust Hazard Reduced

10.10.1962. The rust hazard has been reduced. This is good news for many people. Rust is a major problem for many people, especially those who own cars. Rust can cause a car to become unsafe and can be very expensive to repair. The rust hazard has been reduced by the use of new materials and by the use of new techniques. This is good news for many people, as it means that their cars will last longer and will be safer. This is good news for everyone, as it means that there will be fewer accidents and fewer deaths.

New Approach To Alfalfa Pollination

10.10.1962. A new approach to alfalfa pollination has been developed. This is good news for many people, as it means that alfalfa will be more productive and will be easier to grow. The new approach involves the use of a new type of pollinator, which is a small insect that is trained to pollinate alfalfa. This is a new and innovative approach to alfalfa pollination, and it is expected to be very successful. This is good news for many people, as it means that they will be able to grow alfalfa more easily and more profitably.

FIRE PREVENTION WEEK

10.10.1962. Fire prevention week is a time to remind people of the importance of fire safety. It is a time to learn about the causes of fires and how to prevent them. It is a time to learn about the dangers of fires and how to escape them. It is a time to learn about the importance of having fire extinguishers and how to use them. This is a time to be alert and to take action to prevent fires. This is a time to be safe and to protect ourselves and our property.

Tulip Tests Started

10.10.1962. Tulip tests have been started. This is good news for many people, as it means that tulips will be more productive and will be easier to grow. The tests involve the use of a new type of tulip, which is a hybrid of two different types of tulips. This is a new and innovative approach to tulip growing, and it is expected to be very successful. This is good news for many people, as it means that they will be able to grow tulips more easily and more profitably.
